

Milk Bridge

Medicated Pasteurized Milk Supplement

For Continuous Supplementation for Dairy and Beef Calves

Profile

Milk Bridge® is an easy to use, low inclusion supplement to be mixed with pasteurized milk. It is formulated to bridge the gap in nutrition and/or extend the available milk supply by adding protein and energy to achieve lean tissue growth in young calves during the liquid feeding phase. Milk Bridge is medicated with Bovatec® (lasalocid) for the control of coccidiosis.

Medication

Bovatec (Lasalocid) **455 grams/ton**
 For the control of coccidiosis caused by *Eimeria bovis* and *Eimeria zuernii* in replacement calves. This product contains 227.5 milligrams of lasalocid per pound. Feed to provide 45.4 milligrams of lasalocid per 100 pounds (1 mg/2.2 lb) of body weight daily. Feed during periods of coccidiosis exposure or when experience indicates coccidiosis is likely to be a problem.

Additive

Diflubenzuron (CAS #35367-38-5) **45.5 grams/ton**
ClariFly® brand of diflubenzuron.
 For preventing the development of house, stable, face, and horn flies in the manure of treated calves.

Guaranteed Analysis

Crude Protein, min 20.0%
 Crude Fat, min 20.0%
 Crude Fiber, max 0.40%
 Vitamin A, min 60,000 IU/lb
 Vitamin D3, min 20,000 IU/lb
 Vitamin E, min 300 IU/lb

Ingredients

Dextrose, Animal Plasma, Modified Wheat Protein, Animal Fat (Processed with BHA and BHT), Dried Whey, Dried Whey Protein Concentrate, Calcium Carbonate, DL-Methionine, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Ascorbic Acid, Vitamin B12 Supplement, Folic Acid, Choline Chloride, Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Thiamine Mononitrate, Pyridoxine Hydrochloride, Ferrous Sulfate, Copper Sulfate, Cobalt Sulfate, Zinc Sulfate, Manganese Sulfate, Magnesium Oxide, Ethylenediamine Dihydriodide, Mono and Diglycerides of Edible Fats or Oils, Sodium Silico Aluminate, Selenium Yeast, Artificial Flavor.

Features

.25 lb/day Feeding Rate

20% Protein and 20% Fat

New Technology Proteins

Medication and Feed Additive

Benefits

Easy to use, minimizes impact on the solids level of the finished product fed to the calf.

Higher percent protein provides an equal balance of protein to fat in pasteurized milk to support calf growth

Spray Dried Bovine Plasma — Provides digestible and functional globulin proteins.

Hydrolyzed Wheat Protein — A well-researched, digestible protein source shown to support earlier starter consumption.

Bovatec — Control of coccidiosis caused by *Eimeria bovis* and *Eimeria zuernii*

ClariFly — A feed through larvicide to reduce the occurrence of house flies, stable flies, face flies, and horn flies.

Directions for Use (based on 125 lb Calf)

Add .125 lb of Milk Bridge to 2-3 quarts of pasteurized milk (110-115° F) and mix thoroughly. Feed twice daily.

Packaging

50 lb Bag Item no. 479365
