

Milk Replacers for Dairy and Beef Calves

Profile

Advance® NutraStart offers customized milk replacers that are instant mixing and provide for your calves' performance needs. These formulas range from all-milk proteins to economical alternative ingredients, while having medication options.

Available Proteins

All-milk	Best digestibility, best performance
Hydrolyzed Wheat	Very good digestibility, better performance
Soy Protein Concentrate (S.P.C.)	Refined for better digestibility, good performance
Soy Flour	Good digestibility, good performance

Medication Options

Deccox (Decoquinat)

For the prevention of coccidiosis in ruminating and nonruminating calves (including veal calves) and cattle caused by *Eimeria bovis* and *Eimeria zuernii*. Feed for at least 28 days during periods of coccidiosis exposure or when experience indicates that coccidiosis is likely to be a hazard.†

Bovatec (Lasalocid)

For the control of coccidiosis caused by *Eimeria bovis* and *Eimeria zurnii* in replacement calves. This product contains 45 milligrams of lasalocid per pound. Feed to provide 45 milligrams of lasalocid per 100 pounds (1 mg/2.2 lb) of body weight daily. Feed during periods of coccidiosis exposure or when experience indicates coccidiosis is likely to be a problem.†

Oxytetracycline/Neomycin

For treatment of bacterial enteritis caused by *Escherichia coli* and bacterial pneumonia (shipping fever complex) caused by *Pasteurella multocida* susceptible to oxytetracycline; treatment and control of colibacillosis (bacterial enteritis) caused by *Escherichia coli* susceptible to neomycin.†

Features

High Fat Level

Added Vitamins and Minerals

High Levels of Vitamin E

Partially Agglomerated Formula

Acidified*

Benefits

Provides extra energy for consistent growth

For optimum growth and complete nutrition

Supports the immune system

Outstanding mixing

High level - Prevents bacterial spoilage, providing a shelf life of up to 24 hours once reconstituted

Moderate level - Improves digestibility
