

Perki-Lac™

Powdered Milk Replacer for Dogs and Puppies

Profile

Perki-Lac™ Milk Replacer is a nutritional source for both mother and puppy. Made with the latest advances in formulation and technology, Perki-Lac provides the full, correct balance of essential nutrients for puppies from birth to 35 days old.

Why milk replacer? Unfortunately, cow's milk does not meet the nutritional requirements of newborn, orphaned, or rejected puppies. Perki-Lac not only meets these requirements, it makes feeding quick, easy and fun! Mix Perki-Lac with water for a rewarding milk treat, or later when your puppy is eating solid foods, sprinkle on top for added flavor. See Feeding Directions for other ways your dog or puppy can enjoy Perki-Lac.

Mixing and Feeding Directions

Milk Replacer for Newborns

Mixing: Mix with room temperature water (75° F) at a rate of 1 tbsp of powder to 2 tbsp of water. Unused portion should be refrigerated for no more than 24 hours. Discard any unused formula after 24 hours.

Feeding: This product is intended for supplemental or intermittent feeding only. When possible, the puppy should nurse from the mother a minimum of 2 days after birth. Small breed puppies should be fed every 3-4 hours. Large breed puppies should be fed every 6-8 hours. Feed at a rate of 2 tbsp (1 oz) of liquid formula per 4 oz of body weight per day. The daily feeding amount should be divided evenly among the feedings.

Rewarding Milk Treat: Simply mix with water and feed in a bowl, or pour into dry pet food to make a nutritious gravy. Mix at a rate of 1 tbsp powder to 2 tbsp of water = 1 1/2 oz (1 to 2 ratio). Feed at a rate of 1 1/2 oz of mixed liquid per 15 lb of body weight up to twice per day.

For Show and Working Dogs: Perki-Lac features special blended oils for coat conditioning. Top dress by sprinkling on the food at a rate of 1 tbsp per 15 lb of body weight up to twice per day.

Pregnant and Lactating Mothers: Mix Powdered Perki-Lac into daily food ration at the rate of 2 teaspoons per 5 lb body weight until 2 weeks after whelping.

Flavor Enhancer: Sprinkle Perki-Lac over your pet's food to enhance the flavor. Great as a reward!
