

CONTINUOUS SUPPLEMENTATION FOR DAIRY AND BEEF CALVES

Milk ENHANCE

BIO-MOS® Bovatec®

Medicated Pasteurized Whole Milk or Component Calf Milk Supplement

PROFILE

Milk Enhance is an excellent, convenient option for all dairies and calf ranches looking to enhance the health and immunity of their animals with targeted vitamin fortification and the prevention of coccidiosis, fly control, and the benefits of multiple feed additives in one consistent high-quality formula.

Milk Enhance is formulated to provide minerals and vitamins through its feature of being medicated with Bovatec® (lasalocid), and Celmanax™, making it an easy to use, low inclusion supplement.

MEDICATION

Bovatec (Lasalocid) 1,452.8 grams/ton
For the control of coccidiosis caused by *Eimeria bovis* and *Eimeria zuernii* in replacement calves. This product contains 726.4 milligrams of lasalocid per pound. Feed to provide 45.4 milligrams of lasalocid per 100 pounds (1 mg/2.2 lb) of body weight daily. Feed during periods of coccidiosis exposure or when experience indicates coccidiosis is likely to be a problem.

INGREDIENTS

Dried Whey, Dried Whey Product, Yeast Culture, Yeast Extract, Hydrolyzed Yeast, Dried Skimmed Milk, Lecithin, Dicalcium Phosphate, Calcium Carbonate, Animal and Vegetable Fat (Preserved with BHA and BHT), Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Ascorbic Acid, Niacin Supplement, Calcium Pantothenate, Vitamin B₁₂ Supplement, Thiamine Mononitrate, Riboflavin Supplement, Biotin, Magnesium Oxide, Zinc Sulfate, Ferrous Sulfate, Iron Amino Acid Complex, Manganese Sulfate, Copper Sulfate, Cobalt Sulfate, Pyridoxine Hydrochloride, Ethylenediamine Dihydriodide, Folic Acid, Choline Chloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Selenium Yeast, Sodium Silico Aluminate, Mono and Diglycerides of Edible Fats or Oils, Natural and Artificial Flavors.

FEATURES

.063 lb/day (1 oz) Feeding Rate

Contains essential minerals and vitamins

Pre-measured concentration of medication & additives, in appropriate levels for targeted calves feeding rate.

BENEFITS

Works well with all methods of calf feeding: whole milk, & component calf milk programs. Easy to use. Minimizes the impact on the solids level of the finished product fed to the calf.

Supports desirable growth. Helps calf immune system. Supports the reduction in the incident of calf scours.

Bovatec® — Control of *coccidiosis* caused by *Eimeria bovis* and *Eimeria zuernii*.

Bio-Mos® — Developed through a proprietary process and derived from selected strains of *Saccharomyces cerevisiae* yeast, Bio-Mos® promotes good gut bacteria and builds natural defences to maximize profitability. Maintains gastrointestinal health and integrity which reinforces the function of the digestive system.

MIXING AND FEEDING DIRECTIONS

This is not a complete feed and **MUST** be mixed with non-medicated feed prior to giving to the animal.

Based on a 100 lb Calf: Add 0.031 lb (0.5 oz) of Milk Enhance with Celmanax™, BOV and CFL powder to 2 or 3 quarts of pasteurized whole milk or component calf milk replacer. Feed twice daily.

When mixed as directed above, this product provides 22.7 mg lasalocid and 2.27 mg diflubenzuron per feeding. Feed at a rate to provide 45.4 mg of lasalocid per 100 lb body weight daily. With large batches, agitate mix for individual dispensing to minimize settling.

PACKAGING

Bag: 50 lb

Packaging #492845
